First...

- Thank you for all you are doing...
 - Parents
 - Teachers
 - Supporters
- Self-care is important right now – see the link below for tips!
- And, a reminder that there are many community members with less resources (not on a webinar) who need our help.
 - I encourage all of us to do as much as we can for these families.
 - #payitforward

<https://www.facebook.com/eebarton/posts/10222554304395111>

Overview

- Thoughts on and tips for managing school at home.
- Update on IDEA and the CARES act.
- Resources.
- Q&A.

Current Reality

Thoughts

- Drinking from the fire hose right now?
- This is NOT home school; priority should be physical and mental health and safety.
- Yours, your family and friends, community.

<https://www.challengesuccess.org/parents/pdf-tips/>

Thoughts

- If that is all you can focus on for now, that is fine (at least for the short term).
- PDF -- playtime, downtime, and family time are critical right now!
- For many of our older students, staying connected with friends is also key.
- Functional skills, chores, helping community members are also great uses of time.
- If you can do more and manage school or learning, this presentation

<https://www.challengesuccess.org/parents/pdf-tips/>

Tips

- Structure and routine are important.
- Start SMALL!
- Using a visual schedule can help.
- First – then. For older learners a checklist or schedule could work.
- Use preferred activities as reinforcers.
- Activities should be brief and fun.
- Involving multiple family members, peers adds variability and support.

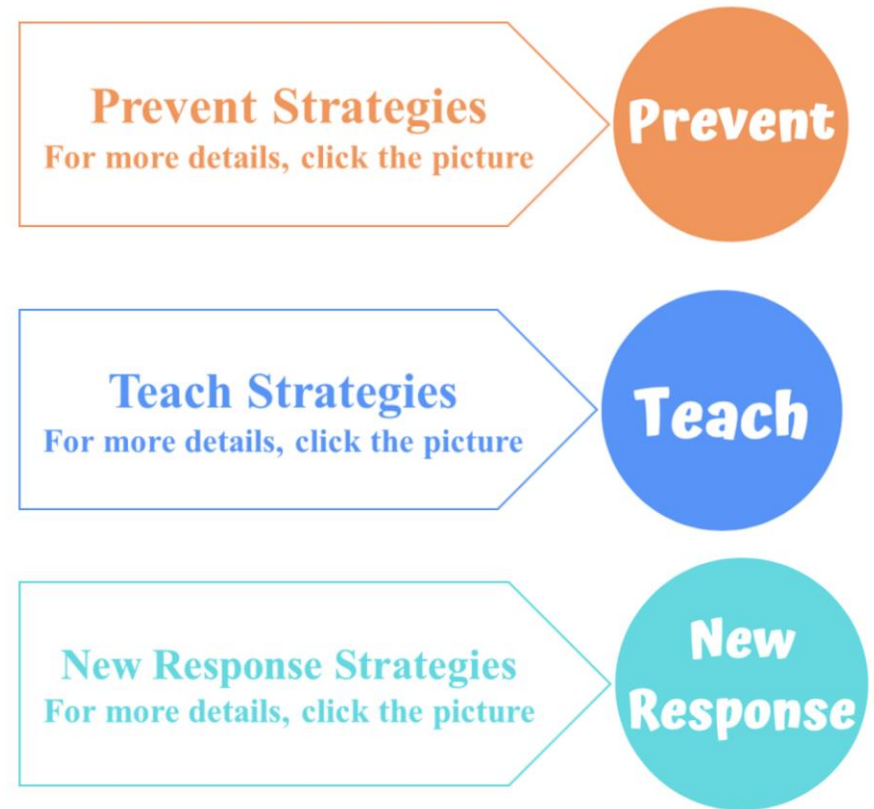

<https://cdn.vanderbilt.edu/vu-web/lab-wpcontent/sites/96/2020/02/12211533/First-Then.pdf>

Challenging Behavior

- For some of you, you may need support in managing challenging behavior.
- The Barton Lab has many great resources!

<https://lab.vanderbilt.edu/barton-lab/fbsapp/>

<https://www.facebook.com/theBartonLab>

Prevent Strategy

Setting Clear Behavior Expectations

Choose 3-5 appropriate behaviors your child can engage in without support.

State behavior expectations positively. For example, say "use walking feet" instead of "no running."

Examples:
Keep your body calm;
Use listening ears;
Clean up your space

Review the expectations daily and provide examples and non-examples of the expected behaviors.

You're keeping your body calm while you play. I'm proud of you.

Provide positive descriptive feedback often to increase the likelihood of that behavior in the future.

Point to visual and say, "remember, we use walking feet inside to stay safe."

Create a visual for each expected behavior. Post them around your home and refer to them often.

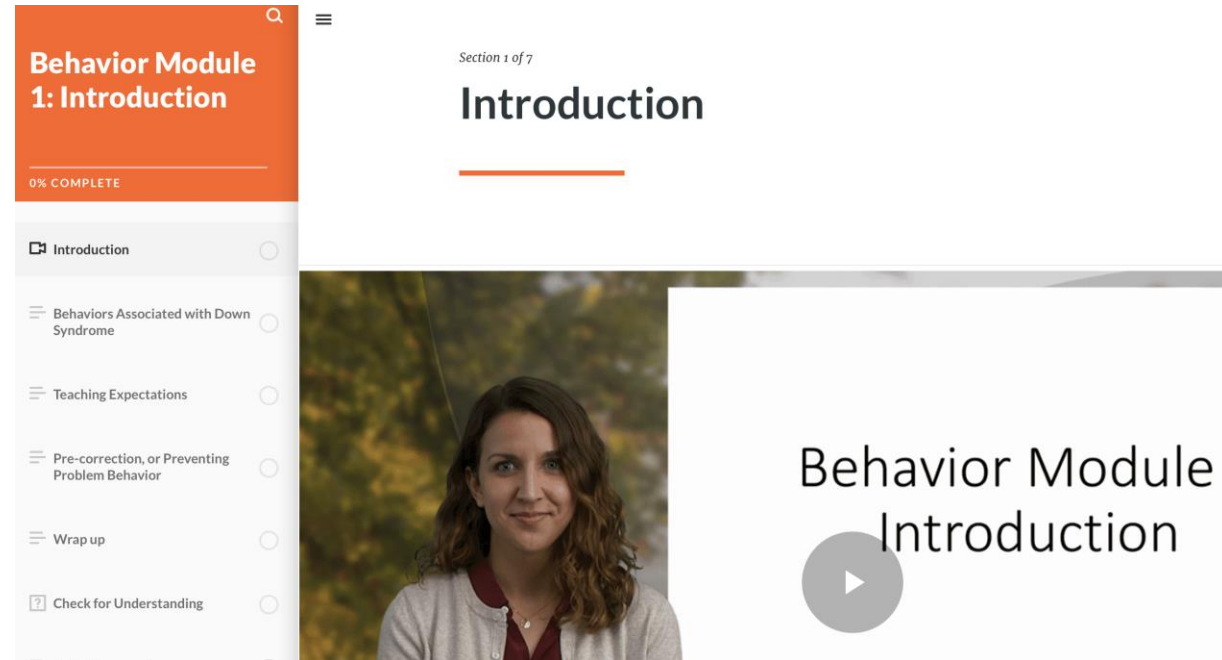

Scroll down for more resources!

Model and practice the expectations with your child using consistent language.

When it's time to clean up, show your child the visual and clean up one toy. Describe what you're doing. Then say, "it's your turn to clean up."

Additional Behavior Modules

- Brief modules developed as part of a research project.
- We are training paraprofessionals to deliver reading and math intervention for students with intellectual and developmental disabilities.
- These modules are designed to enhance the skills paraprofessionals have related to behavior management.
- May be useful for parents during schooling at home.

Behavior Module 1: Introduction

0% COMPLETE

Section 1 of 7

Introduction

Introduction

Behaviors Associated with Down Syndrome

Teaching Expectations

Pre-correction, or Preventing Problem Behavior

Wrap up

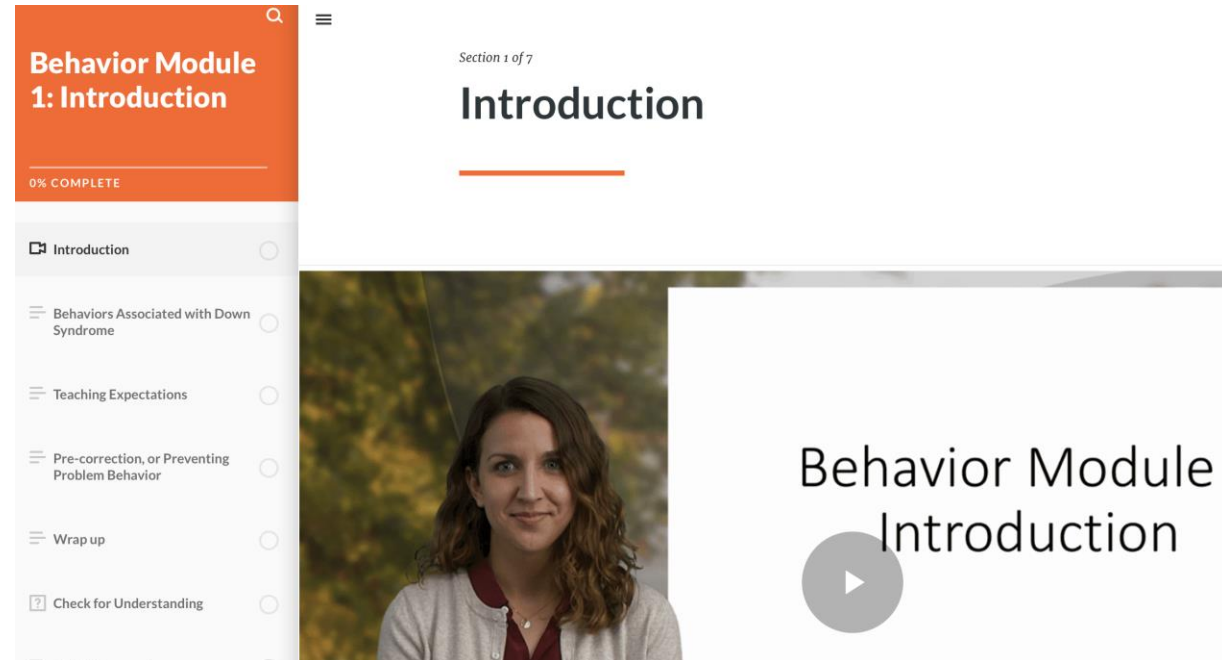

Check for Understanding

Behavior Module Introduction

<https://ies.ed.gov/funding/grantsearch/details.asp?ID=2209>

Additional Behavior Modules

- Note-each one has a ‘SPARK connection’ that is related to the reading intervention. These will not be directly applicable to you.
- Note – These are A LOT.
- Remember, this is not the expectation.
- However, I’m providing because many families have expressed interest.

The screenshot displays a digital learning interface for a 'Behavior Module 1: Introduction'. On the left, a vertical sidebar lists the module's sections: Introduction, Behaviors Associated with Down Syndrome, Teaching Expectations, Pre-correction, or Preventing Problem Behavior, Wrap up, and Check for Understanding. The 'Introduction' section is currently selected. The main content area shows 'Section 1 of 7' and the title 'Introduction'. Below the title is a video player with a play button icon. The video thumbnail features a woman with long brown hair, wearing a light-colored cardigan over a dark top, looking directly at the camera. The text 'Behavior Module Introduction' is overlaid on the right side of the video player.

- Module 3: Visual schedules and choice making
- Module 4: Token systems
- Module 5: Strategies for fading or intensifying behavior supports

Reading

- Conducting read-alouds, reading together, or supporting independent reading are all excellent ways to focus on academics!
- Don't overdo it.
- Keep reading time with you **fun!**
- Spend more time on increased access to literature (read alouds, discussion of stories).
- For more basic skills (e.g., letter sound knowledge) your role should be more review than primary

<https://blog.smu.edu/simmons/general/how-to-help-young-readers/>

Dialogic Reading

- Evidence-based practice that parents can implement at home.
- **PEER**
 - Prompt child to say something about book.
 - “What is this?” [point to firetruck]
 - Evaluate the response.
 - “Truck!” “You are right!”
 - Expand the response.
 - “This is a red firetruck!”
 - Repeat prompt.
 - “Can you say firetruck?”

<https://www.readingrockets.org/article/dialogic-reading-effective-way-read-aloud-young-children>

Dialogic Reading

- **Types of prompts**

- *Completion*

- Blank at end of sentence. Usually used with rhymes.

- *Recall*

- Can you tell me what happened to the train?

- *Open-ended*

- Often focus on pictures.

- *Wh-*

- Who, what, where, when, why

- *Distancing*

- Relate to outside of book

<https://www.readingrockets.org/article/dialogic-reading-effective-way-read-aloud-young-children>

Children and Adolescents with More Advanced Reading Skills

- newsela
 - <https://newsela.com/>
 - Free access through this academic year!
- Focus on fluency, comprehension, and vocabulary.
- Select texts where child can read about 9 out of 10 words or more correctly.
- Repeated reading
 - Cold read – guided practice – Warm read – Graph
- Get the Gist
- Partner Reading
- Building academic vocabulary
- Reading multisyllabic words
- Great motivation video!

Reading With Your Middle School Aged Child

Video 1

¿Cómo participar en la lectura con mi hijo?

How Do I Engage in Partner Reading With My Child?

Why engage in partner reading?

Partner reading provides your child with the following:

1. Practice reading text aloud
2. Immediate corrective feedback
3. Text-based discussion
4. A model of what good reading sounds like

(Leung, 2015; Topping & Lindsay, 1992b; Topping, Thurston, McCavock, & Conlin, 2012)

Explicit Instruction

- If you do decide to provide more instruction than review or practice, these modules may be useful.
- Explicit Instruction is systematic, direct, engaging, and success oriented (Archer & Hughes, 2011).
- Explicit instruction has been validated in research involving both general and special education students.
- The model moves instruction through an “I do, we do, you do” sequence.

Explicit Instruction

- Module 2: Optimizing instructional time
- Module 3: Reviewing prior skills and knowledge
- Module 4: Providing clear models
- Module 5: Examples and non-examples
- Module 6: Providing guided and supported practice
- Module 7: Eliciting responses
- Module 8: Feedback
- Module 9: Independent practice

Remember...

- Teachers are just as thrown into this as you are. Patience and communication are important.
- Do not try to do too much.
- If expectations from teachers are too much, let them know.
- Keep the focus on maintaining a comfortable, happy experience.

Shifting gears...IDEA and the CARES Act

- The CARES Act has provided Secretary DeVos with discretion to make recommendations for requirements of IDEA that could be waived for a period of time due to COVID-19.
- Two primary points for parents:
 - Schools currently have to provide any services that are provided to students without disabilities to those with disabilities.
 - However, we need to recognize that IDEA was not designed for this current situation.

Shifting gears...IDEA and the CARES Act

- The Council for Exceptional Children has recommended to the Secretary that it may be reasonable to adjust some timelines and that some flexibility may be needed in delivering a free and appropriate public education (FAPE).
- <https://cec.sped.org/news/CEC-Response-CARES-Act>
- Parents should consider contacting congressional leaders and the Secretary to advocate for students with disabilities.
- http://cqrcengage.com/naspweb/app/write-a-letter?0&engagementId=507621&fbclid=IwAR3OZOizuGcExGfXNE-aHEa6uoyqwR3K7og2S5A40_MC3hKyUOQ7NrPDE2k

Shifting gears...IDEA and the CARES Act

- We also need to advocate for increased IDEA funding to support schools when we return.
- You can use this link to compose an email to your congressional members:
 - <http://cqrcengage.com/cek/app/onestep-write-a-letter?8&engagementId=507027>

What's Next?

- It is unlikely that schools will return to normal this academic year.
 - Do as much as you can OR move into a closer-to-summer mode if that is what you and your family need.
- Hopefully, we will be returning to some version of in-person school in the fall.
 - Funding for IDEA to support this will be very useful.

(Scan to download PPT)

https://www.dropbox.com/s/i6c652bvd7yuzki/Managing_School_at_Home.pptx?dl=0

What's Next?

- Should we remain in some form of school-at-home in the fall, members of my research team and many colleagues are working on ways to support families and teachers.
- And, schools are working to improve their service delivery.
- If you have thoughts, suggestions for resources, please email me.
